

203 - FURNITURE WAX

TECHNICAL DATA SHEET | NORDICARE

Wood care

FURNITURE WAX is a wax for oak furniture and other light, wax-treated or untreated wooden surfaces such as beech, pine and fir. The wax provides a hard surface with a silky shine, warms the visual appearance of the wood and emphasizes the natural structure. On untreated wood, repeated applications may be required to seal the surface.

Key Benefits

- Designed for oak furniture and other light woods such as beech, pine and fir.
- Provides a hard wax surfaces with a silky, polished shine.
- Warms the appearance of the wood and emphasizes the natural grain structure.
- Helps impregnate and seam untreated wood when applied in repeated treatments.

Application area

For indoor oak furniture and other light wax-treated or untreated wooden furniture surfaces where a hard, silky wax finish is desired. Suitable for wood types such as beech, pine and fir. Always test on a small, inconspicuous area before full application, especially on untreated or absorbent wood where the wax may change the colour, gloss or surface feel.

Instructions

Ensure that the surface is clean, dry and free from dust, grease and loose residues before treatment. Apply FURNITURE WAX with a soft cloth in a thin and uniform layer. Allow the wax to dry, then polish the surface with a clean, soft cloth until the desired shine and surface feel have been obtained. For untreated or very absorbent wood, repeat the treatment if the surface does not appear sealed after the first application. Do not leave excess oil to dry on the surface, this may result in a sticky or uneven finish. Repeat the treatment if the wood appears very dry or uneven.

Conditioning

250 ml (12 units/box)
500 ml (12 units/box)

Document control

Document no.: TDS-203
Product: Furniture Wax
Version: 01
Revision date: 10.07.2026
Prepared by: Technical Department

Declaration

Contains: Hydrocarbon solvent, hydrotreated petroleum distillates, paraffin waxes and hydrocarbon waxes.

Safety information

DANGER

Contains aliphatic hydrocarbons. May be fatal if swallowed and enters airways. Flammable liquid and vapour. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Use and store in a well-ventilated place. Keep cool and keep out of reach of children. IF SWALLOWED: Immediately call a POISON CENTER or doctor. Do NOT induce vomiting. If medical advice is needed, have product container or label at hand.
