

408 - LEATHER CREAM

TECHNICAL DATA SHEET | NORDICARE

Textile care

LEATHER CREAM is a care and protection product for furniture with pigmented leather. It is also suitable for handbags, wallets and other leather products. The cream helps protect the surface against grease and dirt, keeps leather soft and supple, and helps reduce drying and cracking.

Key Benefits

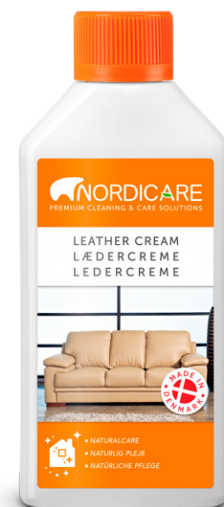

- Conditions and protects pigmented leather after cleaning.
- Helps keep leather soft, supple and well-maintained.
- Helps reduce the dry appearance that may lead to cracking.
- Supports easier maintenance by helping protect against grease and dirt.
- Contains UV protection to support the surface appearance.

Application area

For pigmented leather furniture, handbags, wallets and similar leather products. Do not use on suede, nubuck, mocha or highly absorbent leather. Aniline leather may become temporarily darker. Always test for colour fastness on a small, inconspicuous area before full application.

Instructions

Clean the surface with NORDICARE Leather Soap before treatment. Do not work in direct sunlight. Shake the bottle before use. Apply a continuous thin layer with a sponge or clean cloth and massage gently into the leather. Wipe off excess cream with a clean cloth. Allow the leather to dry for 1 hour before use. Treat twice per year, or up to four times per year on exposed areas such as armrests and headrests.

Conditioning

250 ml (12 units/box)
500 ml (12 units/box)

Document control

Document no.: TDS-408
Product: Leather Cream
Version: 01
Revision date: 20.07.2026
Prepared by: Technical Department

Declaration

Contains: Oils and waxes, UV-filter, emulsifiers, water, perfume and preservative.
