

701 - MULTI CLEANER

TECHNICAL DATA SHEET | NORDICARE

Household care

NORDICARE MULTI CLEANER is a water-based, ready-to-use cleaner for glass and other hard surfaces that can withstand water. It helps remove everyday dirt, grease, fingerprints and similar residues from household surfaces.

Key Benefits

- Multi-purpose cleaning for glass and water-resistant hard surfaces.
- Helps remove dirt, grease, fingerprints and everyday residues.
- Suitable for glass, mirrors, tiles, metal and treated wood.
- Ready to use as part of regular household cleaning.

Application area

For cleaning glass and hard, water-resistant surfaces such as mirrors, tiles, metal, plastic laminate and treated wood. Do not use on surfaces that do not tolerate water, untreated wood or sensitive materials without prior testing. Always test on a small, inconspicuous area before full application.

Instructions

Apply MULTI CLEANER directly to the surface or onto a clean cloth. Wipe the surface evenly with a soft cloth, sponge or microfiber cloth until dirt and residues are removed. For glass and mirrors, use a clean, lint-free cloth and wipe until the surface appears clear and streak-free. For heavier soiling, repeat the treatment if needed. Do not allow the product to dry on sensitive surfaces, and avoid excessive wetting of edges, joints or absorbent materials. Rinse or wipe with a clean damp cloth where appropriate.

Conditioning

500 ml (20 units/box)

Document control

Document no.: TDS-701
Product: Multi Cleaner
Version: 01
Revision date: 06.08.2026
Prepared by: Technical Department

Declaration

Contains: Water, propan-2-ol, <5% anionic surfactants and perfume.

Safety information

Keep out of reach of children.
