

704 - DISHWASHER CLEANER

TECHNICAL DATA SHEET | NORDICARE

Household care

NORDICARE DISHWASHER CLEANER is a water-based, acidic cleaner for cleaning and maintenance of dishwashers. The product is designed for use in empty household dishwashers and helps remove grease, detergent residues and deposits from internal machine surfaces as part of regular appliance care.

Key Benefits

- Designed for cleaning and maintenance of dishwashers.
- Helps remove grease, detergent residues and deposits from internal machine parts.
- Acidic cleaning profile based on citric acid.
- Contains non-ionic and amphoteric surfactants to support cleaning performance.

Application area

For household washing machines and internal machine surfaces that are intended to tolerate washing machine cleaning products. Use only in an empty washing machine and only according to the approved product label. Do not use directly on laundry, textiles or acid-sensitive surfaces outside the machine. Always follow the washing machine manufacturer's recommendations.

Instructions

Empty the washing machine before treatment and remove visible residues from the drum, seal and detergent drawer if needed. Apply WASHING MACHINE CLEANER according to the approved label instructions, then run an empty programme without laundry, detergent or other cleaning products. After the programme has finished, wipe the door seal and detergent drawer if loosened residues remain. Repeat the treatment as part of regular washing machine maintenance or when deposits, detergent build-up or unpleasant odour are observed. Avoid contact with eyes and do not mix with other cleaning agents.

Safety information

WARNING

Causes serious eye irritation. Keep out of reach of children. Wash thoroughly after handling. Wear protective gloves and eye protection where there is risk of contact or splashing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses. If eye irritation persists: Get medical advice/attention.
