

707 - HOB CLEANER & POLISH

TECHNICAL DATA SHEET | NORDICARE

Household care

NORDICARE HOB CLEANER & POLISH is a specialty cleaner for ceramic hobs and smooth glass-ceramic cooking surfaces. The formulation combines cleaning agents with a fine polishing mineral to help remove grease, cooking residues and dull deposits, leaving the hob surface clean and well-maintained after polishing.

Key Benefits

- Designed for cleaning and maintenance of ceramic hobs.
- Helps remove grease, cooking residues and everyday deposits.
- Contains aluminium oxide polishing mineral to support mechanical cleaning and surface polishing.
- Helps restore a clean, even and well-cared-for appearance on glass-ceramic surfaces.

Application area

For ceramic hobs, glass-ceramic cooking surfaces and similar smooth hob surfaces that tolerate specialist hob-cleaning products. Do not use on hot surfaces, damaged surfaces, touch displays, aluminium, natural stone or surfaces where the appliance manufacturer advises against abrasive or polishing cleaners. Always test on a small, inconspicuous area before full application and follow the appliance manufacturer's recommendations.

Instructions

Shake well before use. Ensure that the hob is switched off and completely cool before cleaning. Apply a small amount of HOB CLEANER & POLISH directly to the surface or onto a soft cloth, then spread and polish gently over the dirty area. Allow the product to work briefly on stubborn deposits without letting it dry completely. Wipe the surface thoroughly with a clean, damp cloth to remove residues, then polish dry with a soft, clean cloth until the surface appears clean and even. Repeat the treatment if needed. Do not mix with other cleaning products, and avoid contact with eyes.

Conditioning

250 ml (12 units/box)

500 ml (12 units/box)

Document control

Document no.: TDS-707

Product: Hob Cleaner & Polish

Version: 01

Revision date: 06.08.2026

Prepared by: Technical Department

Declaration

Contains: 30% or more aliphatic hydrocarbons, aluminium oxide, <5% non-ionic surfactants, <5% cationic surfactants and perfume.

Safety information

Keep out of reach of children.
