

714- STAINLESS STEEL CLEANER

TECHNICAL DATA SHEET | NORDICARE

Household care

NORDICARE STAINLESS STEEL CLEANER is a special cleaner for cleaning and maintenance of stainless steel surfaces. The formulation cleans, refreshes and helps maintain a cared-for surface appearance on stainless steel appliances and fittings where an even polished finish is desired.

Key Benefits

- Special cleaner for stainless steel surfaces.
- Helps remove everyday dirt, fingerprints and handling marks.
- Leaves the surface with a clean, maintained and even appearance.
- Contains paraffinic oil for a cared-for finish

Application area

Suitable for stainless steel surfaces such as appliance fronts, cooker hoods, panels, handles and similar hard surfaces. Do not use on hot surfaces, untreated aluminium, sensitive coated surfaces, electrical components or surfaces where the appliance manufacturer advises against this type of cleaner. Always test on a small, inconspicuous area before full application.

Instructions

Shake the product before use if required by the approved product label. Apply a small amount of STAINLESS STEEL CLEANER to a soft, clean cloth and spread it in a thin, even layer, preferably following the direction of the steel grain. Wipe the surface until dirt, fingerprints and marks are removed, then polish with a dry, clean cloth until the surface appears even and residue-free. Avoid applying excess product, and do not use directly on hot surfaces, electrical parts or ventilation openings.

Conditioning

250 ml (12 units/box)
500 ml (12 units/box)

Document control

Document no.: TDS-714
Product: Steel Creme Cleaner
Version: 01
Revision date: 06.08.2026
Prepared by: Technical Department

Declaration

Contains: Pure white paraffinic oil, 15-30% aliphatic hydrocarbons, <5% anionic surfactants, <5% non-ionic surfactants, propylene glycol, perfume and preservatives

Safety information

Keep out of reach of children.
