

715 - AIR CONDITIONER CLEANER

TECHNICAL DATA SHEET | NORDICARE

Household care

NORDICARE AIR CONDITIONER CLEANER is a water-based special cleaner for cleaning air conditioner equipment. It is intended for routine care of accessible AC surfaces and components where a mild water-based cleaner is suitable.

Key Benefits

- Water-based cleaner for air conditioner equipment.
- Helps remove everyday dirt and deposits from accessible surfaces.
- Suitable for routine cleaning and maintenance of AC units.

Application area

Suitable for accessible external and internal non-electrical surfaces of air conditioner equipment that tolerate water-based cleaning. Do not apply to live electrical components, open electronics, motors, sensors or surfaces where the equipment manufacturer advises against water-based cleaning. Always switch off the equipment before use and test on a small, inconspicuous area before full application

Instructions

Switch off the air conditioner and ensure that the relevant surfaces are accessible and safe to clean. Remove loose dust before application. Apply AIR CONDITIONER CLEANER according to the approved product label, preferably onto a cloth or directly onto suitable non-electrical surfaces where appropriate. Wipe or clean the surface evenly and allow it to dry before restarting the equipment. Avoid spraying into electrical components, motors, controls, sensors and ventilation openings not intended for wet cleaning, and always follow the equipment manufacturer's instructions.

Conditioning

500 ml (10 units/box)

Document control

Document no.: TDS-715

Product: AC Cleaner

Version: 01

Revision date: 06.08.2026

Prepared by: Technical Department

Declaration

Contains: Water, propan-2-ol, <5% cationic surfactants, <5% non-ionic surfactants, disinfectants, perfume and preservatives.

Safety information

Keep out of reach of children.
