

716 - STAINLESS STEEL CLEANER SPRAY

TECHNICAL DATA SHEET | NORDICARE

Household care

NORDICARE STAINLESS STEEL CLEANER SPRAY is a special cleaner for cleaning and maintenance of stainless steel surfaces. The spray format supports easy application and helps refresh stainless steel surfaces while leaving a clean and even cared-for appearance.

Key Benefits

- Cleans and cares for leather in one gentle treatment.
- Helps reduce the dry and tired appearance of leather surfaces.
- Supports a softer, more supple surface feel after cleaning.
- Suitable as the cleaning step before applying leather conditioner or cream.
- Simple wipe-on application for regular leather care

Application area

Suitable for stainless steel appliance fronts, cooker hoods, panels, handles and similar hard surfaces. Do not use on hot surfaces, untreated aluminium, sensitive coated surfaces, electrical components or areas where the appliance manufacturer advises against this type of cleaner. Always test on a small, inconspicuous area before full application.

Instructions

Shake before use if required by the approved product label. Spray STAINLESS STEEL CLEANER SPRAY onto a soft cloth, or apply carefully according to the approved label, and wipe the stainless steel surface in the direction of the grain. For fingerprints and handling marks, wipe evenly and polish with a clean, dry cloth until the surface is uniform and residue-free. Avoid overspray, excessive application and direct spraying onto electrical components, controls, ventilation openings or hot surfaces.

Conditioning

500 ml (20 units/box)

Document control

Document no.: TDS-716

Product: Steel Cleaner

Version: 01

Revision date: 06.08.2026

Prepared by: Technical Department

Declaration

Contains: Pure white paraffinic oil, 15-30% aliphatic hydrocarbons, <5% anionic surfactants, <5% non-ionic surfactants, perfume and preservatives.

Safety information

Keep out of reach of children.
