

720 - GRILL CLEANER SPRAY

TECHNICAL DATA SHEET | NORDICARE

Household care

NORDICARE GRILL CLEANER SPRAY is an alkaline spray cleaner for grills, oven grids, baking trays and similar surfaces where heavy grease and burnt-on residues need to be removed.

Key Benefits

- Alkaline cleaner for grills and oven-related equipment.
- Helps remove grease, soot and burnt-on food residues.
- Spray application for controlled distribution on suitable surfaces.
- Suitable for periodic deep cleaning of grills and baking trays.

Application area

Suitable for grills, oven grids, baking trays and similar hard surfaces where the material tolerates strong alkaline cleaning. Do not use on aluminium, painted or sensitive surfaces, catalytic/self-cleaning oven liners, electrical components or surfaces where the manufacturer advises against alkaline cleaners. Always test on a small, inconspicuous area before full application.

Instructions

Ensure that the grill or appliance is switched off and that the surface is cool enough to handle safely before cleaning, unless the approved product label states otherwise. Wear suitable protective gloves and eye protection before use. Apply GRILL CLEANER SPRAY evenly to the soiled surface and allow the product to work according to the approved label instructions. Wipe away loosened grease, soot and burnt-on residues with a damp cloth or sponge, then rinse or wipe the surface thoroughly with clean water until all product residues are removed. Dry the surface before use. Avoid inhaling spray mist and do not spray into electrical parts, burners, controls or ventilation openings.

Conditioning

500 ml (20 units/box)

Document control

Document no.: TDS-420

Product: Grill Cleaner

Version: 01

Revision date: 06.08.2026

Prepared by: Technical Department

Declaration

Contains: Sodium hydroxide, 5-15% non-ionic surfactants, propan-2-ol and perfume.

Safety information

DANGER

Causes severe skin burns and eye damage. Contains sodium hydroxide. Keep out of reach of children. Do not breathe spray. Wear protective gloves, protective clothing and eye/face protection. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN or hair: Take off immediately all contaminated clothing and rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes and continue rinsing. Immediately call a POISON CENTER or doctor.
