

224 - OUTDOOR OIL

TECHNICAL DATA SHEET | NORDICARE

Wood care

NORDICARE Outdoor Wood Oil is an oil for treatment and maintenance of outdoor wooden surfaces such as garden furniture, porches, terraces and oil-finished wooden structures. The oil is suitable for many types of wood, including teak, merbau, mahogany, pine, beech and oak. It penetrates into the surface and helps maintain the wood against everyday exposure to moisture and dirt while enhancing the natural colour and structure of the wood.

Key Benefits

- Penetrates outdoor wooden surfaces and helps maintain the wood.
- Enhances the natural colour, grain and structure of the wood.

Application area

For outdoor wooden surfaces such as terraces, garden furniture, porches and oil-finished wooden structures. Suitable for new and previously oil-treated outdoor wood when the surface is clean, dry and absorbent. Do not use on food-contact surfaces such as cutting boards or kitchen worktops. Always test on a small, inconspicuous area before full application.

Instructions

Ensure that the surface is clean, dry and free from loose material, dirt, algae and old residues before treatment. Apply the oil with a brush or cloth in a generous and even layer. Very absorbent surfaces should be treated several times until the surface is saturated. Wipe off excess oil after approximately 1 hour. Do not leave excess oil to dry on the surface. Coverage is approximately 8-12 m² per litre depending on the surface. Drying time is approximately 24 hours under normal conditions. Clean the brush first in turpentine, then in soap water.

Conditioning

500 ml (12 units/box), 1000 ml (12 units/box), 5000 ml (3 units/box)

Document control

Document no.: TDS-224
Product: Outdoor Oil
Version: 01
Revision date: 20.07.2026
Prepared by: Technical Department

Declaration

Contains: Aliphatic hydrocarbons, isophthalic alkyds, lead-free siccative, additives and anti-oxidants. Contains 3-iodo-2-propynyl butylcarbamate.

Safety information

DANGER

May be fatal if swallowed and enters airways. Contains 3-iodo-2-propynyl butylcarbamate: may produce an allergic reaction. Keep out of reach of children. Used cloths may self-ignite and should therefore be soaked with water and packed air-tight in aluminium foil or in a plastic bag before disposal. IF SWALLOWED: Immediately call a POISON CENTER or doctor. Do NOT induce vomiting. Keep away from heat, sparks, open flames and hot surfaces.
